

HANDOUT – 4: COMPUTATIONAL THINKING – DIRECTIONS AND COORDINATES

ANSWERS

ACTIVITY 1: CRICKET PRACTICE AND TEMPERATURE

- Which city has the highest attendance?
Srinagar – 57 students approximately.
- What happens to attendance as temperature increases?
Attendance decreases as temperature increases.
- Is there a positive or negative relationship?
Negative relationship.

TEMPERATURE vs ATTENDANCE TABLE

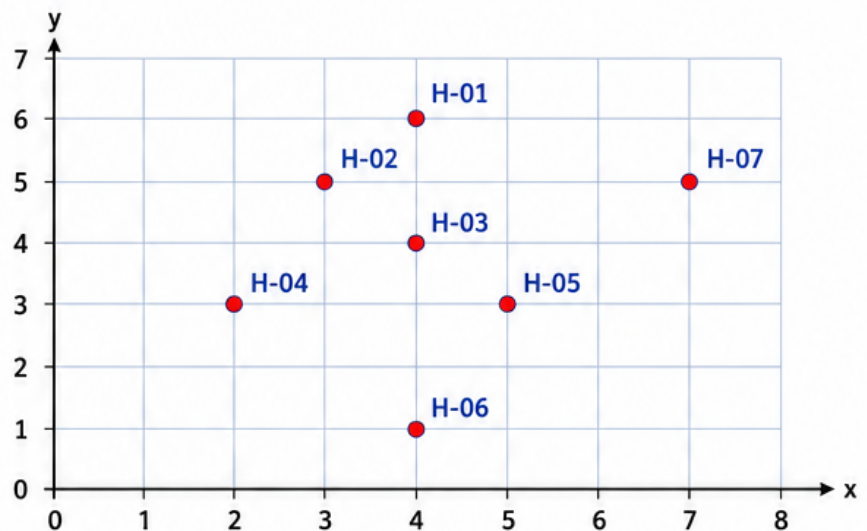

City	Temperature (°C)	Attendance (Approx.)
Srinagar	5	57
Mumbai	20	40
Delhi	30	29
Ahmedabad	35	27
Chennai	38	23

Conclusion: Attendance decreases as temperature increases.
Hence, there is a **negative relationship**.

ACTIVITY 2: DRONE DELIVERY

- Plot the following coordinates on the given grid.

Hospital	Coordinates (x, y)
H-01	(4, 6)
H-02	(3, 5)
H-03	(4, 4)
H-04	(2, 3)
H-05	(5, 3)
H-06	(4, 1)
H-07	(7, 5)

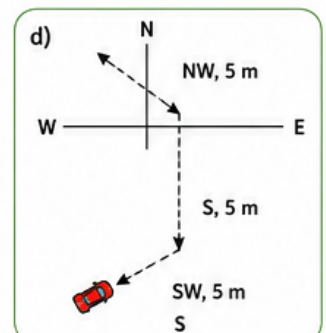

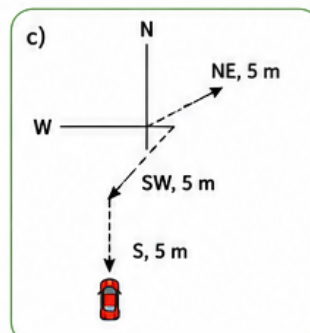

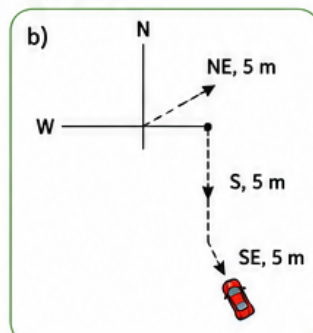

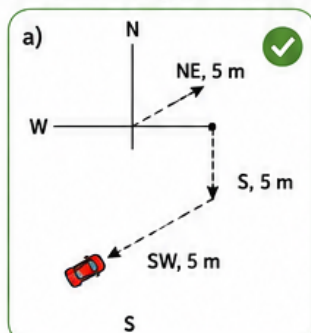

- A drone is at hospital H-01 (4, 6) and needs to find the nearest hospital. Which is the nearest hospital?

Answer:
a) H-02

ACTIVITY 3: SELF-DRIVING CAR

- The message of instructions is:
(NE, 5), (S, 5), (SW, 5)
- The distance in each direction is: **5 m**
- The car will end up facing:
South-West (SW)
- Which diagram shows the correct path?

REMEMBER THE RULES:

- NE = North-East (Up-Right)
- S = South (Down)
- SW = South-West (Down-Left)
